# QUIBBLES

## GERMAN ACCUSATIONS AGAINST FRANCE

ATTEMPT MADE TO PARALYSE LOCARNO TREATY"

Geneva, To-day.

Quibbles regarding the application of sanctions are already arising. Certain jurists maintain that the automatic application of Article XVI was abolished by the Assembly by a resolution in 1921 and thus will require the unanimous vote of the Assembly to make the sanctions obligatory on the member States. If the unanimity of the Assembly is indispensable for the requisite application of the sanctions it becomes more difficult.

Considerable importance is attached to the arrival by air of the Polish Foreign Minister. Colonel Beck, who, it is learned, may make certain reservations regarding the attitude of Poland. Colonel Beck is reported to be coming to Geneva at the earnest solicitation of the Italian Minister at Warsaw.

The attitude of Austria, Hungary and Switzerland is uncertain as their participation in any form of sanctions is very difficult owing to their dependence upon Italian trade.

Pact With Britain In Near Future

GRAVE ANXIETY NOTICEABLE THROUGHOUT COUNTRY

-CHINA MAIL" SPECIAL

Cairo, To-day. The conclusion of the Anglo-Egyptian Military Alliance appears to be foreshadowed by a series of conferences which the British High Commissioner, Sir Miles Lampson, had in course of the past week with the British Military Expert and the Egyptian Government.

Special significance is attached to the fact that Sir Miles Lampson has been formally received by King Fand, and it is generally anticipated that the Anglo-Egyptian Pact will be published at the forthcoming anniversary of the King's accession.

The atmosphere is filled with a grave anxiety which has been noticeable throughout the country since the aggravation of the Italian-Abyssinian conflict and has been further intensified by outbreak of hostilities, since it is expected that the momentous decisions to be taken by the League imposed by the Abyssinian of Nations will be of the greatest menace. concern to Egypt.

FROST INJURES HIS WRIST

(By "Referee")

L'AIRLY good bunching by the forwards and accurate passing by the halves and threequarters featured the second rugby trial game held by the Hong Kong Football Club yesterday at Happy Valley, the afternoon's rain producing a very slippery surface.

Several newcomers were seen out, among whom were Smalley, who arrived late in the first half. A well-built player, he moves along at a fast pace and knows how to use his feet. He was always to the fore in the forward rushes.

Humphreys, the Shanghai Rugby Interporter, was another who impressed. A wing forward with plenty of speed, he is soon off the mark and has a fairly useful defence.

### 14TH YEAR OF CHAMPIONSHIPS

(By G. M. R. Holmes)

the women's United States golf championship tournament of 1922 there appeared on the links of the Greenbrier Golf and Tennis Club, at White Sulphur Springs, W. Ba., a young girl from Providence, R.I., by the name of Glenna Col-DUE TO-DAY lett and she proceeded to go through the field with such skill that she became the champion, succeeding Marion Hollins.

The soundness of her game was such that a brilliant future was predicted for her and well has she come up to the most sanguine expectations of her many friends and admirers as this past Saturday found her winning her sixth United States Championship title at the Interlachen Country Club. Minneapolis.

Her holding of the golf championship honours of her country thus covers a span of 14 years. That she has not won more than six titles during that time is no doubt due to the fact that she did not play in all the championship tournaments. She has also been giving considerable of her time to bringing up a daughter and a son who we may expect to be hearing from on the golf links in some 15 or 20 years.

While Mrs. Vare did not have - Virginia Van Wie of Chicago she held during the past three years — the veteran titleholder had to play championship golf all the way. Win or lose, however, her presence in one of these tournaments is sure to increase interest, and many a younger aspirant for honours will-be-able to learn much from competing against her. is also to be hoped that she will be able to find time to take another trip across the Atlantic for another try at the women's British title, as this is the one major which is carrying the Shanghai golding honour that has eluded

ALLEGED ESPIONAGE Geneva: The Italian Minister EARLIER MESSAGES and the entire Legation staff have been requested to leave Abyssinian territory by the Negus in consequence of alleged espionage activities and plots against the Abyssinian Government.

This step, and the reasons for it being taken, were communicated to the League in a note handed in yesterday by the Abyssinian representative.

Despite the unprovoked attack of which she is a victim, the note declares that Abyssinia had the intention of permitting the Italian Minister and his staff to remain in the country in order to provide the League with further evidence of her conciliatory spirit, although the granting of such permission i unparalleled in history.

GENEVA ACTIVITIES

Geneva: Yesterday's activities here were chiefly confined to preparatory discussions between the leading diplomatic strategists concerning the all-important question of sanctions to be imposed upon

Hugh speculation has been caused in the fact that M. Laval and Mr. Anthony Eden both left the League capital at noon yesterday for the little town of Pontdemoron in the French department Haute Savoie, just across the border, where they spent several hours in a consultation which is likely to have an important bearing on the League's impending decisions.

It is only natural that the statesmen's excursion has revived the rumours of the Italian initiative for further negotiations.

ETHIOPIAN UNEASINESS Despite the Council's action on Monday, fixing the guilt on Italy, some uneasiness is felt in Abyssinian League circles, it being feared that the powers may favour a further advance of the Italian troops in order to be able to exert more pressure on Abyssinia for a final settlement On the other hand, it is maintained in some quarters that France and Britain have practically reached an agreement on sanctions, but it is quite possible that these rum--ours were circulated for the pur-

KEEPING CLOSE WATCH ON NANKING AGENDA

[From Our Own Correspondent]

Canton. To-day.

It is learned this morning that the high Kuomintang leaders here have reached a definite stand towards Nanking in view of its refusal o to accept their four sweeping resolutions-The decision of the leaders in Canton is believed to be farreaching as regards the Fifth Kuomintang Congress

No resolutions submitted after August 18, 1934, can be accepted: but those sent in before that date, it is considered.
